

Electrical Planner

New Gold Inc. (NGD:TSX/AMEX) www.newgold.com is developing one of Canada's largest underground block-cave mining operations located 10 km west of Kamloops, BC.

Our employees create a dynamic, supportive team that strive to make a difference in their workplace and are dedicated to making a significant contribution to the development of an exciting, new mining operation - The New Afton Mine.

The Electrical Planner role is an integral part of our Maintenance team striving to continuously find opportunities to improve our maintenance activities through effective design, planning, scheduling and utilization of resources at the New Afton Mine. Focus will be on the set-up, implementation and execution of the work management process within the Electrical Department and in coordination with the construction department in developing the mill and mine. This includes preventative, routine and forced outage maintenance work while ensuring all groups are notified and follow order standards as well as other duties required. This role also works closely with the Energy Specialist in creating energy efficiencies through increased productivity and cost effectiveness.

Qualified candidates have a minimum of 5 years maintenance experience in a plant or industrial environment in combination with an Engineering technology diploma or Engineering degree. A mechanical/electrical trade journeyman certification or Power Engineering Certificate with proven planning/scheduling experience or recognized planning certificate program will also be considered. The equivalent combination of education and experience is supported by a demonstrated ability to use Microsoft Office and the desire to work in a dynamic and fast-paced work environment.

This role is responsible for working within a strong team environment supporting the growth and development of team members while providing direction, support and guidance to Technical Services, Maintenance and Operations. The incumbent is expected to work in a safe, effective manner while working towards achieving our production goals.

Kamloops is a city of 90,000 people, located 350 km east of Vancouver. The area provides the opportunity to live and work in a vibrant community with its own University and within easy reach of world class ski resorts, championship golf courses, mountain biking trails, popular recreational lakes and the vineyards of the Okanagan Valley.

Interested candidates are encouraged to submit a cover letter and résumé outlining their experience and qualifications. Please quote **Job #: 2010-026 Electrical Planner** in your application to:
